

Only USA Milk Seal Criteria

This seal verifies the country of origin of the milk or milk based ingredients in this product is produced entirely in the United States of America with no exceptions.

This seal will not be allowed on the products that are derived from or contain raw milk or milk that has not been pasteurized.

This seal will not be allowed on the products that contain whey protein concentrates (WPC).

This will be verified by the Dairy Pricing Association Board of Directors and their audit team.

Their decision on what products are allowed to use this seal will be made after their review of the product ingredients. Their decision will be final.
